

The OAC accepts payment via credit card, cheque or Paypal, which as noted below, can be attached to a VISA or Mastercard if you wish.

PayPal Info

Pay Pal is one of the oldest and most secure online payment systems. It was launched in 2008 but some individuals remain unsure how it works and whether it is safe. PayPal has over 173 million member accounts in 202 countries and regions. It's accepted by merchants everywhere. It is considered to be as safe or safer than any other method of paying online.

When you sign up for a PayPal account, you link the credit cards and/or bank accounts you wish to use for purchases to PayPal's secure system. Once that is accomplished, you never again have to disclose your credit card information online.

Benefits of PayPal:

- ▶ **Sign up for free.** All you need is an email address and a password to get started.
- ▶ **Secure payment service that makes it easy to make online payments.** They don't share your financial details with sellers, so you can shop with peace of mind.
- ▶ **Buying isn't just secure, it's free.** You never pay any fees when you buy with PayPal. Use PayPal to make payments from your bank accounts, Visa Debit cards and credit cards
- ▶ **PayPal will send you notifications of any payments made from your account.** You can adjust your notification settings if desired.

The screenshot shows the PayPal sign-up page. At the top is the PayPal logo. Below it is the text: "Join millions around the world who shop and send money at the speed of light". The form consists of several input fields: a dropdown menu for "Country" (set to "Canada"), "First name", "Middle name", "Last name", "Email address", and "Create your password" (with a "Show" link). A blue "Next" button is at the bottom. At the very bottom, there is a link for "Français | i+i".
